

FOR IMMEDIATE RELEASE:

Corinth, MS – April 20, 2015 — D.I. Roof Seamers proudly announces the opening of their new office location in Mesa, Arizona.

Since 1989, D.I. Roof Seamers has operated out of their facility in Corinth, Mississippi and is considered the largest dedicated roof seamer manufacturer in the world. This facility marks the third location for D.I. after their Canadian facility opened in 2013 in Niagara Falls, Ontario.

D.I. Roof Seamers' new facility will house a rental fleet of roof seamers, hand crimpers and tools and act as a distribution point and service center. Trained staff and service technicians will be on hand to insure that the high quality standards that our customers have come to expect from D.I., are maintained. The location of the office will provide builders faster shipping times to the Western United States and the Pacific Northwest.

“Although a limited number of customers have been serviced from this location this this location opened in April 2015,” stated Product Development Manager Bo Newman, “the office is quickly getting on its feet and seeing growth.”

###

Since the development of the first D.I. Roof Seamer in October 1989, the company has grown to a 60,000 sq. ft. CNC machining facility on a 14 acre campus. Located in Northeastern Mississippi, Developmental Industries, Inc. is now the largest CNC facility in the region and is committed to sustaining American jobs. All machines, hand tools and other products offered by Developmental Industries, Inc. are manufactured and assembled in our facility in the USA. D.I. Roof Seamers, the division of Developmental Industries, Inc. that handles all Roof Seamer products and services, is proud to offer many Roof Seamer rental and purchase options along with a full line of hand crimpers, hand tools, roof removal tools and other accessories to the metal construction market.
