FOR IMMEDIATE RELEASE:

D.I. Roof Seamers opens new facility in Ontario to service Canada and Northeastern United States.

Niagara Falls, Ontario, July 2, 2012 — D.I. Roof Seamers proudly announces the opening of their new office in Niagara Falls, Ontario, Canada.

D.I. Roof Seamers' new facility will house a rental fleet of roof seamers, hand crimpers and tools and act as a distribution point and service center. Trained staff and service technicians will be on hand to insure that the high quality standards that our customers have come to expect from D.I., are maintained. The location of the office will provide builders faster shipping times and without the hassle of international shipping frustrations. This new office will also service select customers in the Northeastern United States.

Since 1989, D.I. Roof Seamers has operated out of their facility in Corinth, Mississippi and is considered the largest dedicated roof seamer manufacturer in the world. With the successful opening of the office in Niagara Falls, Ontario, additional offices are expected in 2013.

Since the development of the first D.I. Roof Seamer in October 1989, the company has grown to a 60,000 sq. ft. CNC machining facility on a 14 acre campus. Located in Northeastern Mississippi, Developmental Industries, Inc. is now the largest CNC facility in the region and is committed to sustaining America jobs and doing their part to rebuild the economy. All machines, hand tools and other products offered by Developmental Industries, Inc. are manufactured and assembled in our facility. D.I. Roof Seamers, the division of Developmental Industries, Inc. that handles all Roof Seamer products and services, is proud to offer many Roof Seamer rental and purchase options along with a full line of hand crimpers, hand tools, roof removal tools and other accessories.
