

## **FOR IMMEDIATE RELEASE:**

### **Introducing the D.I. REVOLUTION™ battery-powered panel crimper for standing seam metal roof systems -- the latest innovation from D.I. Roof Seamers.**

Corinth, MS, October 11, 2011 — D.I. Roof Seamers proudly introduces the D.I. REVOLUTION™ battery-powered panel crimper.

Finally, a new technology has eclipsed the old manual hand crimping methods of the past for standing seam metal roof systems. The D.I. REVOLUTION™ from D.I. Roof Seamers performs perfect, consistent crimps at the push of a button – no more sore shoulders, elbows and wrists. This battery-powered crimper eliminates your need for an electric roof seamer on small projects, greatly reduces the manual labor required on the large ones, and is designed to make fast work of crimping and securing your project under budget and ahead of schedule.

The D.I. REVOLUTION™ is equipped with a powerful Milwaukee M18™ High Performance Motor and weighs only 13.4 lbs\*. Features include a variable speed trigger, built-in LED work light that illuminates your work surface in low-light situations, ergonomic handle grips, and a motor capable of over 650 in-lbs of torque that minimizes user fatigue and maximizes productivity. You can expect over 270 (136 linear feet) continuous crimps per battery charge†. The entire kit includes the D.I. REVOLUTION™, two (2) rechargeable 18V XC High Capacity REDLITHIUM™ Lithium-Ion batteries, optional side handle, 30 day manufacturers limited warranty, user guide and a charger for rapid battery replacements in the field\*\*. The included iM2600 PELICAN™ STORM CASE™ makes the kit complete by offering superior protection against rugged jobsite conditions and inclement weather.

D.I. REVOLUTION™ Dimensions: 12" X 15.25" X 4.25"  
Total Weight of Kit: 29.2 lbs. (Shipping Weight)

The D.I. REVOLUTION™ is available to purchase for only \$2,499.99 and rental for only \$35 per day. More information about purchase and rental programs can be found at [www.diroofseamers.com](http://www.diroofseamers.com).
